Bye Bye Dry

Replens MD™ is the UK's No.1 GP recommended brand for vaginal dryness* and we're making in-consultation recommendations easier with the free samples and money-off coupons inside this kit. So, your patients can wave bye-bye to vaginal dryness and say hello to happier days to come.

*GPRxdata - from July 2014 to June 2015 - UK coverage

Relieve. Rejuvenate. Rekindle. Replens.

The oestrogen-free way to relieve vaginal dryness and replenish vaginal moisture

Replenish your patient's confidence with the UK's No.1 GP choice for vaginal dryness*

- Vaginal dryness symptoms involve itching, irritation, discomfort and painful sex
- 1/6 of women under 50 and 1/2 over 51 will suffer vaginal dryness**
- The confusion around symptoms can lead patients to misdiagnosis and use of the wrong OTC treatment
- Only 1/4 will actually seek advice***

Unlike lubricants, Replens MD™ is the right solution for long lasting relief

- Different from other lotions or lubricants thanks to the Polycarbophil gel (a bio adhesive gel that delivers continuous moisture)
- Clinically tested response for vaginal dryness

*GPrxdata – from July 2014 to June 2015 – UK coverage

Available in 3 easy-to-use and discreet sizes - 1, 2 and 4 weeks supply.

How does Replens MD™ work?

Step 1

Replens MD™ immediately goes to work providing soothing moisture to dry vaginal cells for long-lasting hydration.

Step 2

It delivers continuous moisture which vaginal cells absorb, regaining natural integrity and elasticity for up to 3 days, helping to replenish moisture to dry cells and supplementing the body's natural lubrication.

Step 3

As the cells of the vaginal wall are regenerated, dead cells are cleared and Replens MD™ is eliminated naturally. Regular moisturising will help prevent dryness from recurring.
